# SEVIER GOLD MINE

Western Exploration Company Took It in Yesterday.

\$25,000 PAYMENT MADE

STRIKE IN VICTOR VERIFIED BY MANAGER M'CUNE.

The famous old Sevier mine at Gold Mountain was sold yesterday by Charles Lummersdorf, C. K. McCornick and A. E. Hyde, with the first named as the chief owner. The con-tract of sale, upon which the sum of

tract of sale, upon which the sum of \$25,000 was paid down, and which calls for the further payment of \$125,000, was executed in favor of Willard F. Snyder, as president of the Western Exploration company. Remaining payments cover a period extending to the close of next year, and that the purchaser means business is indicated by the size of the initial payment.

Fending the arrangement of some minor details that are to be fixed up totay, Mr. Snyder said he did not feel like saying much about the purchase. He admitted, however, that it was one step in the direction of planting just such another corporation in that camp as the Annie Laurie, and said the enterprise would be launched in a very short time.

The Sovier mine is, or was until the

The Sevier mine is, or was until the Annie Laurie became famous, the best known property in that camp. It is equipped with a mill and has been opened up by thousands of feet of workings. It has produced many thousands of collars' worth of bullion and it will be converted into a big bonanza in connection with the other properties that will be consolidated with it. It was through Mr. Snyder's engineering that Gold Mountain got its Annie Laurie, and it will be due to him that another company fully as powerful will soon be operating in that camp.

VICTOR STRIKE A BIG ONE. Ten Feet Through Ore That Runs

Over \$50 Per Ton. came in from camp lust the with rticulars of the strike in that propfor came in from camp last and with particulars of the strike in and property, and he made no pretense at hiding his satisfaction with it. The strike was made in a crosscut toward the Carisa end lines from a fifty-foot upraise from the 300 level, or about 300 feet deeper than the deepest workings of the Carisa. Up to the hour of Manager McCune's leaving, the ore body had been penetrated for a distance of ten feet, while the drill holes showed the same material three feet farther in. No work has yet been done to prove up its full extent, but as the material is described as being identical with that coming from the Carisa, the presumption is that it is a continuation of the same chute.

An assay of the rock where it was first broken into showed values in gold, copper and silver of over \$50 per ton, and he has no doubt it will all run that well or better. "Where we are now working," said he, "is only about forty feet from the Carisa end lines, but we have a long stretch on the dip of the chute before it leaves our property." Mr. McCune will return to the camp the first of the week.

BLACK FRIDAY ON 'CHANGE.

Local mining stocks got the worst a drubbing yesterday they have received since the slump began several weeks alarming reports from the president's bedsice, as nothing had occurred at any property represented in the list to cause an unloading. The greatest slaughter occurred in the forencon, and for a time pandemonium reigned. Trading was quite heavy, the record for the day being \$9,450 shares and \$78,115.75. In the ahernoon a better tone was noticeable and nearly every security that fell with such a crash in the morning strengthened during the afternoon call. The only two active stocks that failed to be caught in the swirl were Ontario and Victor, both of which were strong and buoyant on the strength of news from the properties.

The throttle was pulled wide open and the down-hill glide was started with Ajax cutting out the pace. From an opening at \$1.36 it fell with each succeeding transfer till \$1.27 was touched. From there it rose to \$1.29½ and closed the morning call at ½c less. In the afternoon it opened at \$1.29, rose to \$1.30 and then went gliding down to \$1.25½, recovering and closing at \$1.26%. Con. Mercur behaved even worse, opening with a sale at \$2.21, as against a closing sale at \$2.32, and closed with a sale at that price.

Daly, that sold as high as \$3.45 the at any property represented in the list

an advanced to \$2.30, and closed with sale at that price.
Daly, that sold as high as \$3.45 the y previous, opened at \$3.20 and wenting down the line to \$2.36.

Mammoth, May Day, Carisa, Uncle mand practically all the other stocks are the same proportion.

The Great Missouri Pacific.

The "Missouri Pacific" new through car line between San Francisco and St. Louis is proving a great success. Passing through Salt Lake City, the Passing through Salt Lake City, the finest mountain scenery, to Pueblo, then through the beet sugar lands at Sugar City and the great grain belt to Kansas City, then through good, old Missouri farms to St. Louis, it makes one of the most pleasant routes between the east and Utah.

Only one change to Buffalo and the large cities east and south.

News of President's Relapse

Sends Prices Down.

WAS PANIC IN LONDON

DISTURBED CONDITIONS ARE IN-CREASED BY FINANCES.

New York, Sept. 13 .- The news of the president's relapse fell upon the stock market with almost greater force than day below the level of last Saturday.

day below the level of last Saturday. The laborious course of restoration of prices during the week had earried the average well back to that ruling at the close of last Friday, before the news of the shooting was known in Wall street. A false report of the president's death had circulated in London today, and the panicky selling from that center was thrown upon the opening market here.

The condition of the money market and some of the developments of yesterday left the market vulnerable even to a more natural course of events. Disappointment over yesterday's dividend action on St. Paul was keen and heavy selling of that stock was inevitable in any event. Amalgamated Copper also continued under special pressure, owing to the assertions that enormous stocks of copper were being accumulated and that the maintenance of the price of the product was becoming difficult. Republic Steel was actived. 

involved in the settlement of the purchase.

The critical condition of the money market during the past week has apparently brought some relief to the drain on New York reserves, and the cash losses are estimated to be not greater than \$2.500,000. This does not include today's large gain from the sub-treasury. The loan item is a matter of mere guess work, but the free lending of money early in the week to keep down the money rate must be reckoned with as well as the liquidation which has been effected. Call loans went to 10 per cent today, but relapsed to 6 per cent. No extraordinary measures were deemed necessary by the clearing house committee, and, in fact, that body was not in session during the day.

Railroad bonds were weak but not

COFFEE DISEASES.

Minister and Young Lady Affected. Son of President Kruger Said to Be Minister sometimes and they suffer from the effects of bad habits as well as ordinary people. Rev. Mr. —— of Athens, N. Y., had become greatly emaclated from coffee drinking, which produced stomach trouble and all of the effects of overwork or poor nourishment.

He quit the coffee and began drinking He quit the coffee and began drinking Postum Cereal Food Coffee.

His health began to improve and he now weighs 151 pounds, an increase of 15 pounds over his former weight. This improvement in health and strength is shown to be due to the use of Postum Food Coffee, by the fact that when he stops drinking Postum—as he has done for an experiment—he begins to lose flesh and get back into his old condition.

If you want a delicious, refreshing glass of beer, and one that is madright here in Salt Lake, try Fisher's.

PURCHASE OF BONDS.

Secretary of the Treasury Gage Issues a Statement.

Washington, Sept. 13.—Secretary Gage has issued the following state-

Gage has issued the following statement regarding bond purchases:

"The secretary of the treasury announces that the treasury department will resume today the purchase of bonds of the 3 per cent loan of 1908-1918, the 4 per cent funded loan of 1908-1918, the 4 per cent loan of 1904, upon the basis of an interest return of 1.726 per cent which represents the investment value of the 2 per cent consols of 1903, when selling at 106½ in the market. "This is the same basis of purchase established by the department last April and which continued until the 10th inst. when the secretary invited proposals for the sale of bonds to the department. The time during which such proposals were to be received was limited to two days, and expired yesterday evening, the 12th Inst.

"In addition to the bonds of the loans above named, the department will consider the proposals for the purchase of bonds of the 4 per cent loan of 1925 at

sider the proposals for the purchas bonds of the 4 per cent loan of 1 a price not to exceed 140 flat.

SURRENDER TO BRITISH.

Captain Referie have surrendered.
Lord Kitchener has sent King Edward, as colonel-in-chief of the Gordon Highlanders, an account of an incident that strongly recalls the storming of Dargai heights by that regiment. Lord Kitchener says that, after surrendering, Commandant Villiers informed him that during the Boer attack of July 4 on Watsoon spruit the Highlanders behaved with the utmost gallantry. The last four men, though completely surrounded and without cover, continued to fire until three men were killed and the fourth was wounded. On the Boers asking the survivor the reason why they had not surrendered, he replied:
"Why, man, we are Gordon High-

#### Gives Instant Vigor.
